

Want to experience innovation and entrepreneurship in practice?

For students who want to experience innovation and entrepreneurship first-hand, NLC is offering a full-time internship position. NLC is a specialised incubator that builds innovative startups. Unlike most corporates and large institutions that lack the dynamics to make startups thrive, NLC has a vibrant ecosystem that brings together the right people and knowledge and takes technologies from creation to prosperity.

Our diverse team consists of a highly skilled and knowledgeable partner group and a growing pool of senior and junior business developers. As an intern you will work to find, select, and validate high potential innovations with the NLC business developers. You will work on developing business plans, financial models and investment plans, identifying stakeholders and target groups. We talk to buyers and end users, IP lawyers, medical specialists, CE experts, subsidy advisors; do market research, competitor analyses, visit conferences, make presentations, and much more! Do you want to be part of this adventure and put your superpowers to use to complement the NLC team?

We are looking for:

- High-potential students in the last phase of their academic study with for example a business, innovation, or organisational background;
- Strong, professional communicators in both Dutch and English with an eye for detail;
- Adaptive capabilities in a constantly changing environment;
- Batteries-included team players who are more interested in making history than repeating it;
- Affinity with innovation, entrepreneurship, technology, healthcare, and/or startups.

We offer:

- €300-€500/month internship compensation;
- ± 6-months educational learning-by-doing in a dynamic startup environment and within a rapidly growing organisation;
- Contributing directly to establishing a solid base for success in all kinds of healthtech startups;
- Challenging responsibilities whilst working on promising projects with the NLC business developers;
- Working in a very motivated team with diverse backgrounds and experiences, with support of a large network.

Did we catch your attention and are you interested in learning more? Please don't hesitate to reach out to jobs@nlc.nl with any questions or an application with a (short) motivation and CV.

We look forward to hearing from you!

The NLC Team.
