

### Internships at Fairventures Social Forestry

We are a for-profit social venture, developing agroforestry and conservation projects in Indonesia. We have four agroforestry projects in our portfolio (two in Sumatra, one in Java and one in Central Kalimantan). Active involvement of local communities is essential to our business model.

We generate revenues from selling crops, non-timber forest products, timber and carbon offsets. Our focus is on scaling our business to new land areas in Indonesia in the coming years, including a 35.000 hectares social forestry scheme in Sumatra and a 15.000 hectares social forestry scheme in Java.

For further information, please check out our website <https://www.fairventures.earth/>

We offer (graduate) internships for master and/or bachelor students to focus on:

- 1) Fundraising work stream – working on project-specific technical and commercial sections of slide decks for investor presentations. Support with modelling, including agriculture and forestry related assumptions (growth, prices etc.) and carbon
- 2) Business Development work stream
  - a. Provide support on drafting the technical sections (e.g. agroforestry planting plan) for the business plans of our future projects
  - b. Provide support on designing capital assistance and contract farming schemes for our new social forestry projects
- 3) Carbon work stream – analysis of possible, suitable carbon pools and certification schemes for our future projects, in close consultation with our carbon expert

We are looking for enthusiastic, hardworking student(s) combining technical skills with a business mindset. Particular interest in the SE Asia region is appreciated. English writing and speaking skills are needed, Bahasa Indonesia and/or German is a plus but not a requirement. The internship program will start in September 2024.

Face-to-face interaction mainly with the CEO/CFO and the GIS specialist (working from the Amersfoort office), online interaction with colleagues based in Indonesia and Germany. Includes monthly fee/compensation.
